---

## OBJECTIVE

An internship position to advance my abilities in the computer science field and to sharpen my problem-solving skills.

## EDUCATION

**Bachelor of Arts in Computer Science** (2020)

Third-year at the University of Virginia with cumulative GPA 3.25 / 4.0.

## PROJECTS

**WiCS "Hack to the Future" hack-a-thon at UVA** – Gathering information and developing the website for this upcoming event held by our Women in Computer Science (WiCS) organization. Consulted with UVA faculty advisors for event location and scheduling.

**HoosIn** – Working with a team to develop a web app that will connect UVA students with similar classes and/or extracurricular interests to form study groups or to find tutors. The app will also keep students updated with upcoming events hosted by student organizations.

## SKILLS

- |          |          |             |             |
|----------|----------|-------------|-------------|
| • Python | • Java   | • C++       | • Github    |
| • Django | • VSCode | • HTML5/CSS | • Bootstrap |

## EXPERIENCE

**2017 – CURRENT**

**STUDENT AUDIO-VISUAL MANAGER, UNIVERSITY OF VIRGINIA**

Managing a team of about 5 students per semester responsible for audio and visual technology set-up for students, faculty, and staff to conduct their presentations and video conferencing at Newcomb Hall (the student center of UVA).

## ACTIVITIES

**Co-President**, Battlefield High School Orchestras, 2014 – 2016

**Year-round Student Volunteer**, Novant Health UVA Health System, 2014 - 2016

Assisted staff, visitors, and patients with non-medical tasks 3 or more hours per week.
